

**WOODSTOCK BOARD OF ASSESSMENT APPEALS
MEETING FOR MOTOR VEHICLE APPEALS
TUESDAY, SEPT 8, 2014
TOWN HALL**

Members present: Ed Larson, Nancy Nystrom, Rebecca Hyde

The meeting was called to order by Ed Larson at 6 pm.

Appeals were submitted on 4 vehicles, heard by appointment every 15 minutes. The first applicant didn't show up. The second applicant was Kenneth Gardner regarding his 2004 Dodge Ram truck. His truck was examined and a note made of the current odometer reading, which was 274,588. The third applicant was Michelle Carrier regarding her 1998 Chevy S10 truck. She had meant to also appeal the valuation of her 2005 Nissan Altima but it was in the shop and thus unavailable for inspection. Her truck was examined and a note made of the current odometer reading of 143,012.

Values and adjustments for mileage were reviewed using the NADA Used Car and Older Used Car Guides covering the October 1, 2013 valuation date. Nancy Nystrom moved that the assessed value of the 2004 Dodge Ram truck be reduced to 7,230 due to high mileage. This was passed unanimously.

The 1998 Chevy S10 truck had low mileage for its age but extensive rust issues. Nancy Nystrom moved that there be no change in the valuation. This was passed unanimously.

Meeting adjourned at 7:15 PM.
