**DEVELOPMENT REVIEW CHECKLIST
TOWN OF WOODSTOCK CONSERVATION COMMISSION**

The Development Review Checklist is used to review subdivision and special permit applications for compatibility with the Town of Woodstock *A Plan of Open Space and Conservation (APOSC)* and the *2002 Plan of Conservation and Development Update*. Chapter IV of the *Town of Woodstock Subdivision Regulations* and Article IV of the *Town of Woodstock Zoning Regulations* requires that the applicant complete this Checklist and submit it to the Planning & Zoning Commission with a subdivision or special permit application.

The Checklist was designed by the Woodstock Conservation Commission to facilitate early identification of important natural and cultural resources that may be impacted by development, and to promote consideration of measures to appropriately protect those resources. Applicants are strongly encouraged to consider these resources and measures during the initial planning and design phase of the application process.

Although not required, applicants are also encouraged to meet with Conservation Commission staff (as the schedules of our volunteer members allow) during the planning phase, to review natural and cultural resources and conservation measures. Experience has shown that such pre-application reviews help identify critical resources, prioritize conservation goals, and avoid conflicts, while protecting the rights of applicants and property owners.

A copy of *APOSC*, the *2002 Plan of Conservation and Development Update*, and accompanying resource maps are available at the Woodstock Town Hall in the Building Department or the office of the Town Clerk. *APOSC*, maps, and an electronic copy of this Checklist are also available at the Town of Woodstock Conservation Commission website at <http://www.woodstockconservation.org>.

Sincerely,

Woodstock Planning and Zoning Commission
Jeff Gordon, MD, Chairperson

Woodstock Conservation Commission
Jean Pillo, Chairperson

DEVELOPMENT REVIEW CHECKLIST

Subdivision/Special Permit Application Review for Compatibility with A Plan of Open Space and Conservation¹

Prepared by the Woodstock (CT) Conservation Commission, Rev 1,10/30/04 – endorsed by Planning & Zoning Commission on 11/18/04.

This checklist highlights resources and considerations that should be considered during the planning phase of development.

COMMENTS SECTION: Please provide additional information if applicable or useful:

Site Includes High School Sport Fields
 Site has been used for Academic Purposes since 1941 (Annhurst College)

Note: An electronic version of this checklist can be downloaded from Woodstock Conservation Commission website, <http://www.woodstockconservation.org/checklist>. Printed copies are available from the Woodstock Building Dept. Suggestions for how this checklist can be improved are welcome. Please submit comments to the Conservation Commission, c/o Woodstock Town Hall, 415 Route 169, Woodstock, CT 06281.

ENDNOTES AND DEFINITIONS FOR THE PURPOSES OF THIS CHECKLIST

- 1 Refer to **A Plan of Open Space and Conservation (APOSC)** for the Town of Woodstock, CT for additional information on goals and recommendations. A copy of APOSC can be obtained from the Building Dept. at the Woodstock Town Hall, or downloaded from the Woodstock Conservation Commission at <http://www.woodstockconservation.org>. Unless otherwise noted, **Maps** referred to below are also available online at <http://www.woodstockconservation.org/maps.htm>, or at the Office of the Town Clerk in Woodstock.
- 2 N/A is Not Applicable. Put an X in this column if none of these resources exist and none are adjacent to the proposed location.
- 3 Over or near a potential high yielding stratified drift aquifer. See Open Space Priorities – Aquifer Protection map.
- 4 Regulated Activities (Section 22a-354i-1(34) of the Aquifer Protection Area Land Use Regulations of the State of CT DEP) are listed in Table 5-c in Appendix D of APOSC.
- 5 See Public Water Supply Watershed map.
- 6 Federal Emergency Management Agency – located within 100 or 500-year floodplain on a Flood Insurance Rate Map.
- 7 Perennial or intermittent streams present. See Drainage Basins map.
- 8 Vernal pools are isolated basins that hold water on a temporary basis (usually during winter and spring), but are too shallow to support fish. No map available. For best management practices, see *Conserving Pool-Breeding Amphibians in Residential and Commercial Developments in the Northeastern United States*, MCA technical paper series: No. 5.
- 9 A riparian buffer is a vegetated area alongside a stream/river.
- 10 Open space priority areas are described in APOSC, section IV, and include agricultural, forestry, aquifer and potential wildlife corridors. See Open Space Priority maps: Agricultural, Forest Land, Aquifer Protection, and Potential Wildlife Corridor.
- 11 Committed open space is permanently preserved in a near-natural or agricultural state (e.g., through deed restrictions.) Does not include land in PA 490.
- 12 A greenway is a belt of interconnected open space.
- 13 Farmland designated by soil type as described in the USDA NRCS Soil Survey of Windham County, CT.
- 14 Purchase of Development Rights under the Connecticut Department of Agriculture Farmland Preservation Program or other farmland preservation program.
- 15 Large forest block = 100 acres or more of contiguous forest (may have multiple owners or be divided among multiple parcels).
- 16 See Productive Forest Soils map or refer to www.woodstockconservation.org/forestsoils.htm
- 17 Endangered, threatened, or species of special concern – includes plants, mammals, reptiles, amphibians, fish, birds, and invertebrates. Consult the CT DEP National Diversity Database for presence/potential. This map does not show all locations, since a thorough investigation of all sections of Woodstock map clearly showing the project boundaries should be submitted to the Natural Diversity Data Base Request Form with a project description and a copy of a Refer to APOSC, section IV for description of Potential Wildlife Corridors
- 18 State and Federal Listed Species And Significant Natural Communities map, available from the State of CT DEP.
- 19 1883 Map of Woodstock by J.L. Lester.
- 20 Areas of high archeological sensitivity as identified on the Archeological Sensitivity map.
- 21 E.g., Connecticut Path, Pulpit Rock, etc.
- 23 Passive recreation generally encompasses the less intensive range of outdoor activities that are compatible with preserving natural resource functions such as wildlife habitat and floodplain protection. Examples include wildlife observation, walking, non-motorized biking, and canoeing.

**Notification to the Windham Water Works or Southbridge Public Water Supply or
Putnam Public Water Supply Watershed of Application for a Project within the
Noted Water Supply – Required by Public Act 89-301**

P.A. 89-301 "An Act Implementing the Recommendation of the Water Lands Task Force and Concerning Water Diversions and Notification to Water Companies of the Storage of Hazardous Materials," requires applicants to provide a water company written notice of an application, petition, request or plan if the proposed project is located within the watershed of the wetland, zoning or planning and zoning commission and zoning boards of appeal. The applicant must mail such notice within seven (7) days of the date of the application, by certified mail, return receipt requested. The Town of Woodstock furnishes this form to such boards and commissions in its watershed to be used by applicants to meet this requirement. Other forms or letters, as approved by each commission, may be used, but must contain the same information. To determine if a project is within one of the above-noted watersheds, please consult the map on file with the Commission or Town Clerk. Failure of an applicant to comply with this law may be grounds for a legal appeal of a decision rendered on the applicant due to a procedural error. Do not jeopardize your application, send your notification!

Public Water Supply Watershed or Aquifer Area
Project Notification Form

Requirement:

All applicants before a municipal Zoning Commission, Planning and Zoning Commission, Zoning Board of Appeals, or Inland Wetlands Agency for any project located within a public water supply aquifer or watershed area are required by Section 8-3i and Sec. 22a-42 of the CT General Statutes to notify Connecticut Water Company of the proposed project by certified mail not later than 7 days after the date of the application. The notice should be sent to: Jessica Demar, Environmental & Regulatory Compliance Coordinator, Connecticut Water Company, 93 West Main Street, Clinton, CT 06413 by Certified Mail, Return Receipt.

General Information:

1. Location map of the project site (please show enough information to locate site).
2. Site plans, including soil erosion and sediment control plan, which have been submitted to the town commission for review.
3. Project address 150 Route 169, Woodstock, CT
4. Total acreage of project site +/-119 Acres
5. Existing land use High School
6. Description of proposed project Construction of 4 new Tennis Courts

7. Acreage of area to be disturbed including structures, additions, paving, and soil disturbance 2.0

8. Type of sanitary system (circle one): septic system / public sewer / none
9. Number of **existing or proposed** floor drains and their point of discharge e.g. sanitary sewer, holding tank, or ground unknown

10. Water accessed by (circle one): private well / public water / none
If other, please specify Public Water Supply Well

11. Distance of site disturbance to nearest watercourse or wetland 40-feet

12. Brief description of **existing and proposed** stormwater management system, including roof drainage, paved areas etc., and discharge points e.g. municipal sewers, drywells, streams, vegetated areas, detention basins etc. _____

Existing drainage system discharges directly to Little Brook. Proposed system

will provide water quality treatment and detention of peak flows prior to

discharge to the existing system.

13. Type of heat for facility Oil

14. List of **existing and proposed** underground or above-ground storage tanks including age, capacity and contents _____

No Changes Proposed, see current Sanitary Survey

15. List of potentially harmful chemicals stored or used on property (**existing and proposed**) and typical onsite volumes, including but not limited to petroleum products, lubricants, solvents, detergents and pesticides _____

No Changes Proposed, see current Sanitary Survey

16. Describe any wastes generated and their means of disposal No new waste will be
generated by Tennis Court Construction

17. Date application will be heard by Planning and Zoning Commission 1/18/2024

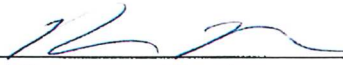

18. Date application will be heard by Zoning Board of Appeals _____

19. Date application will be heard by Inland Wetlands Commission _____

20. Name, address and telephone number of contact person for the project:
