Subject: New steps to lakefront dock

Good morning Mr. Malo. My name is Bob Dion and I live at 135 Laurel Hill Drive on Lake Bunggee. I've owned my home for 13 years and when I originally built we placed some steppingstones down to the water. I would like to replace these stones with 12 granite steps. I will not be touching the water at all. Do I need inland wetlands approval for what I consider a landscaping improvement? You are certainly welcome to come look at it anytime. If you feel I do require inland wetlands approval. I have contacted the lakes and beaches chair person within our tax district. We are scheduled to meet Friday evening for him to view, and hopefully approve. his new steps will alleviate a safety concern I have as I get older getting down to the dock. My regards. Thank you.
